SIEMENS

Data sheet

6GK7342-5DA03-0XE0

Communications processor CP 342-5 for connection of SIMATIC S7-300 to PROFIBUS DP, S5-compatible, PG/OP and S7 communication

transfer rate	
transfer rate	
 at the 1st interface / acc. to PROFIBUS 	9.6 kbit/s 12 Mbit/s
interfaces	
number of interfaces / acc. to Industrial Ethernet	0
number of electrical connections	
 at the 1st interface / acc. to PROFIBUS 	1
for power supply	1
type of electrical connection	
 at the 1st interface / acc. to PROFIBUS 	9-pin Sub-D socket (RS485)
for power supply	4-pole terminal block
supply voltage, current consumption, power loss	
type of voltage / of the supply voltage	DC
supply voltage / 1 / from backplane bus	5 V
supply voltage / external	24 V
supply voltage / external / at DC / rated value	24 V
relative positive tolerance / at DC / at 24 V	20 %
relative negative tolerance / at DC / at 24 V	15 %
consumed current	
from backplane bus / at DC / at 5 V / typical	0.15 A
 from external supply voltage / at DC / at 24 V / typical 	0.25 A
power loss [W]	6.75 W
ambient conditions	
ambient temperature	
during operation	0 60 °C
during storage	-40 +70 °C
during transport	-40 +70 °C
relative humidity	
 at 25 °C / without condensation / during operation / maximum 	95 %
protection class IP	IP20
design, dimensions and weights	
module format	Compact module S7-300 single width
width	40 mm
height	125 mm
depth	120 mm
net weight	0.3 kg

product features, product functions, product components	/ general	
number of units		
• per CPU / maximum	4	
performance data / open communication		
number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum	16	
data volume		
 as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum 	240 byte	
performance data / PROFIBUS DP		
service / as DP master		
• DPV0	Yes	
number of DP slaves		
on DP master / operable	124	
 data volume of the address range of the inputs / as DP master / total 	2160 byte	
of the address range of the outputs / as DP master / total	2160 byte	
• of the address range of the inputs / per DP slave	244 byte	
 of the address range of the outputs / per DP slave 	244 byte	
of the address range of the diagnostic data / per DP slave	240 byte	
service / as DP slave • DPV0	Yes	
data volume		
 of the address range of the inputs / as DP slave / total 	240 byte	
of the address range of the outputs / as DP slave / total	240 byte	
performance data / S7 communication		
•		
number of possible connections / for S7 communication		
number of possible connections / for S7 communication • maximum	16	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode	16	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode		
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum	32	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum		
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol	32	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported	32 28	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP	32 28 No	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP product functions / management, configuration, engineeri	32 28 No	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP	32 28 No	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP product functions / management, configuration, engineeri configuration software	32 28 No ng STEP 7 V5.1 SP2 or higher / STEP 7 Professional V12 (TIA Portal) or higher	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP product functions / management, configuration, engineeri configuration software • required	32 28 No ng STEP 7 V5.1 SP2 or higher / STEP 7 Professional V12 (TIA Portal) or higher	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP product functions / management, configuration, engineeri configuration software • required standards, specifications, approvals / hazardous environn certificate of suitability / CCC / for hazardous zone	32 28 No ng STEP 7 V5.1 SP2 or higher / STEP 7 Professional V12 (TIA Portal) or higher nents	
number of possible connections / for S7 communication • maximum performance data / multi-protocol mode number of active connections / with multi-protocol mode • without DP / maximum • with DP / maximum performance data / telecontrol protocol / is supported • TCP/IP product functions / management, configuration, engineeri configuration software • required standards, specifications, approvals / hazardous environmoderificate of suitability / CCC / for hazardous zone according to GB standard	32 28 No ng STEP 7 V5.1 SP2 or higher / STEP 7 Professional V12 (TIA Portal) or higher nents

machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4)
