Push Buttons

Allen-Bradley 22 mm 800F Push Buttons
meet your specific push button needs.

- Superior Quality Design
- Product Flexibility
- Time and Cost Savings
- Aesthetic Appearance
- Worldwide Acceptability, Support and Delivery
- Reliable Application Solutions

Superior Quality Design

The 800F line is designed and manufactured to meet demanding performance specifications. Using state-of-the-art solid modeling techniques and finite element analysis, each component built into 800F push buttons is optimized for durability and safe performance.

Demanding Environments

Durable operator bushings and locking rings are constructed of die-cast zinc and finished with corrosion-resistant chromate plating.

Corrosive Environments

Operator bushings and locking rings are constructed of industrial grade thermoplastic.

Switching Safety

- Rigid teeth inside all 800F selector switches provide positive detent, which assures they will not hang-up between positions.
- Our constant energy solution adds an additional layer of protection to assure switching safety. Vibration or a slight bump will not cause a change in state.

Dependable Sealing

Dependable sealing offers IP65/66 and Type 4/13 ratings throughout the 800F product line.

Diaphragm Seals

- Used throughout the 800F line on linear travel devices
- Flexes with the operation of the button
- Not dependent on lubrication for long life and performance

K-Seals

- Used on rotating devices such as twist-to-release E-stops
- Dual wiping action provides high pressure sealing performance while lubrication trapping extends sealing life

Panel Gasket

- Installed on all devices
- Seals both panel and mounting hole for superior performance
- Provides operator retention for one-person installation

Product Flexibility

Modularity

Any Operator + Any Back Of Panel Component = Unparalleled Flexibility

Variety

The combinations of colors, styles and sizes in our operators are almost limitless and certain to meet any application requirement.

A variety of latch and contact block choices are available to fit both space and use requirements.

- Spring-clamp or screw terminations
- Single or dual circuit

- Rotating collar allows easy one-hand latch removal
- 30 x 40 mm (1-3/16" x 1-9/16") mounting matrix reduces panel space requirements
- Snap fit, tools not required to attach latch or contact blocks for ease of installation
- Bifurcated contact blocks provide excellent contact wiping and optimal switching reliability
- Color-coded contact block plungers for easy circuit identification

Choose from a large selection of illumination solutions to meet all your application needs. Integrated LED modules are available for all operators in 24V AC/DC, 120V AC and 240V AC. Power modules utilizing incandescent lamps are available for pilot lights, push buttons, and mushroom operators in 6V AC/DC-120V AC.

A variety of accessories is offered ranging from legend plates, to replacement caps and lenses, to grounding kits and anti-rotation washers.

Legend Plates

- Two-piece style allows easy changing of legends, even after panel assembly
- One-piece style features low-tack adhesive to assist the installation process
- E-Stop legends come in two different sizes: 60 and 90 mm diameter
- International symbols, text, and custom markings are available

Two-Color Plastic Caps and Custom Laser-Engraved Caps/Diffusers

- Saves space and simplifies installation by eliminating the need for separate legend plates
- Durable and long-lasting
- Laser engraving available for standard or custom text as well custom graphics on pushbutton caps, illuminated pushbutton diffusers, and pilot light diffusers

The 800F product line is completed with a full line of enclosures in both plastic and metal. Enclosures accept either latch or base-mounted contact blocks.

Metal Enclosures

- 1-, 2-, 3-, and 5-hole configurations
- IP66 and Type 4/13 ratings
- PG or Metric through-holes
- Accepts two-piece snap-in legend

Plastic Enclosures

- Available with PG or Metric knockouts enclosures
- IP66 and Type 4/4X/13 ratings
- 1-, 2-, 3-, 4-, and 6-hole configurations
- A 1-hole configuration is also available in yellow for E-stop applications
- Accepts two-piece snap-in legend

Time and Cost Savings

Anti-rotation tab provides accurate alignment and eliminates operator and legend plate rotation. The tab is easily removed for use in panels without notches.

Rotating collar for easy assembly and removal.

Snap-down color-coded contact blocks.

Easy one-person mounting and removal provides both time and cost savings.

Aesthetic Appearance

- Stylish appearance and lower front-of-panel profile designed to enhance equipment appearance
- Operators available with black plastic or shiny metal appearance

Worldwide Acceptability, Support and Delivery

- Designed to meet worldwide standards
- UL Listed, CSA Certified, CE Marked, Third Party Approved: KEMA
- RoHs Directive (Restriction of Hazardous Substances) compliant
- Worldwide product manufacturing, configuration and distribution centers
- Worldwide product sales support

Reliable Application Solutions

QuadCONNECT™ – A Low-Voltage Exclusive

Direct drive contacts are revolutionizing the market for low-voltage switching. Our quadfurcated contacts feature spanners with four “fingers” on each side of the spanner, allowing many different possible current paths. Each path can carry the full rated load of the contact. Contacts include:

- Self-cleaning contact wiping for increased contact reliability and life
- No contact bounce between the spanner’s “fingers” and the stationary surface it makes contact with
- Operates sequentially, with each finger making contact independently
- A gold-plated spanner to resist corrosion
- Increased communication reliability in ContoLogix®, SLC™, and MicroLogix™ devices
- Recommended for applications below 17V, 5mA down to 5V, 1mA

Self-Monitoring™ Contact Blocks Enhance E-Stop Reliability

Proper contact block installation is critical to ensure that the normally closed contacts will open when the E-Stop is actuated. Separation of the contact blocks from the E-Stop operator will prevent the E-Stop from shutting down the controlled process in an emergency. The following dangerous scenarios could result in contact block separation:

- Contact block or latch is incorrectly assembled to the E-Stop operator.
- Contact block or latch is accidentally damaged during maintenance.
- Contact block or latch is removed during maintenance and not reinstalled.

The self-monitoring contact block eliminates these separation concerns by actually monitoring its own installation. If the self-monitoring contact blocks are separated from the E-Stop operators for any reason, they will open the circuit and the process will shut down.

Emergency Stops

Reliability where it is needed most

When activated, E-Stops are designed to instantly cut off power to any operating equipment. Our E-Stops and contact blocks have been tested and certified by a European Testing Agency to meet the EN 418 and EN 60947-5-5 standards.

Specifications*

Front-of-Panel (Operators)

Mechanical Ratings			
Description		Plastic (Bulletin 800FP)	Metal (Bulletin 800FM)
Vibration (assembled to panel)		Tested at 10...2000 Hz, 1.52 mm displacement (peak-to-peak) max./10 G max. for 3 hr duration, no damage	
Shock		Tested at 1/2 cycle sine wave for 11 ms; no damage at 100 G	
Degree of protection❄		IP65/66 (Type 3/3R/4/4X/12/13)	IP65/66 (Type 3/3R/4/12/13)
Mechanical durability per EN 60947-5-1 (Annex C)	10,000,000 Cycles	Momentary Push Buttons, Momentary Mushroom	
	1,000,000 Cycles	Multi-Function, Selector Switch, Key Selector Switch, Selector Jog, SenseEject™ Key Selector Switch	
	500,000 Cycles	Non-Illuminated Push-Pull E-Stop	
	300,000 Cycles	Twist-to-Release E-Stop, Illuminated Push-Pull E-Stop, Alternate Action Push Buttons	
	100,000 Cycles	Potentiometer, Toggle Switch	
Operating forces (typical with one contact block)		Flush/extended = 5 N, E-stop = 36 N Mushroom = 9 N	
Operating torque (typical application with one contact block)		Selector switch = 0.25 N•m (2.2 lb-in.)	
Mounting torque	Plastic	1.7 N•m (15 lb-in.)	
	Metal	4.4 N•m (40 lb-in.)	
Environmental			
Temperature range (operating)		-25...+70°C (-13...158°F)‡	
Temperature range (short term storage)		-40...+85°C (-40...185°F)	
Humidity		50...95% RH from 25...60°C (77...140°F)	

* Performance Data — see page Important-2 of the Industrial Controls catalog (A115-CA001A-EN-P).

* Momentary mushroom operators are IP65. Plastic keyed operators are IP66, Type 4/13; not Type 4X.

‡ Operating temperatures below 0°C (32°F) are based on the absence of freezing moisture and liquids, UL Recognized to 55°C (131°F) - Incandescent module Max 40°C (104°F).

Plastic and Metal Enclosures

Plastic Enclosure
 Cat. No. 800F-3PM

Metal Enclosure
 Cat. No. 800F-5MM

Pendant Station
 Cat. No. 800F-P25

Plastic Enclosures (Latch or Base Mounting)

- Accepts two-piece snap-in legends
- One-hole enclosure accepts 60 mm emergency stop legends
- Double insulated 
- UL Listed, CSA Certified

Metal Enclosures (Latch or Base Mounting)

- Feed-through design
- Accepts two-piece snap-in legends
- Includes base mount adapter

Pendant Stations (Latch Mounting)

- Blank legend cap marking
- Connector not included. See Accessories, page 52, for ordering information.

Legend Plates, Continued

Ordering Information*§

Standard Text/Symbols

1. Select the cat. no. for the appropriate legend size and color from the Selection Tables on this page.
2. Complete the cat. no. by adding the appropriate suffix no. selected from pages 61...63. Font size is automatically determined by the number of characters, as shown in the following table. Do not add the font code to the cat. no.

Font Size	No. of Characters		
	One-Piece Legend Plate	Two-Piece Legend Plate	Special Multi-Function Legend Plate
K (small)	>14	>13	>6
S (standard)	≤14	≤13	≤6

Example: **Cat. No. 800F-11WE101** identifies a white, 30 x 40 mm snap-in legend plate and frame with AUTO engraved on it.

Custom Text (text not found on pages 61...63)

1. Select the cat. no. for the appropriate legend size and color from the Selection Tables on this page.
2. Add **E100** followed by the font code (K, S, L) from the following table.

Font Size	Type of Legend Plate							
	One-Piece			Two-Piece			Special Multi-Function	
	Max. Char. per Line	Max. No. of Lines		Max. Char. per Line	Max. No. of Lines		Max. Char. per Line	Max. No. of Lines
		30 x 40 mm	30 x 50 mm		30 x 40 mm	30 x 50 mm or 30 x 60 mm		
K (small)	16	2	5	15	2	5	7	3
S (standard)	14	2	3	13	1	3	6	3
L (large)	10	1	3	9	1	3	4	2

3. Complete the cat. no. by adding custom text to the order item's memo text or notes field.

Example: **Cat. No. 800F-12WE100K STARTER** identifies a white, 30 x 50 mm snap-in legend plate and frame with custom text STARTER engraved in small font.

Legend Plate Frame — 2-Piece Snap-In*			
Type	Cat. No.	Type	Cat. No.
30 x 40 mm	800F-110	30 x 60 mm	800F-200
30 x 50 mm	800F-120	Special multi-function	800F-400

* Blank legend frames sold only in multiples of 10. Order (quantity of) 10 to receive one package of 10 pieces. Legends with standard text/symbols or custom text are packaged in quantities of 1.

‡ Font code **K** = 0.08 in; font code **S** = 0.10 in; font code **L** = 0.14 in.

‡ Three snap-in plates are required for each legend frame.

§ For configuration assistance, see RAISE product selection software.

♣ Plate dimensions found on pages 66...67.

Custom Laser-Engraved Caps and Diffusers

Ordering Information**§

Standard Text/Symbols

1. Select the cat. no. for the appropriate product and color from the Configurator Tables on this page.
2. Complete the cat. no. by adding the appropriate suffix no. selected from pages 61...63.

Example: **Cat. No. 800F-AF3CE166** identifies a flush, green cap with custom-engraved text ON.

3. Font size is automatically determined by the number of characters. ‡ Do not add a font code to the cat. no.

Font Size	No. of Characters
12 pt.	7
16 pt.	5...6
20 pt.	1...4

Custom Text (text not found on pages 61...63)

1. Select the cat. no. for the appropriate product and color from the Configurator Tables on this page.
2. Add E100 followed by the font code (G, H, J), based on the number of custom characters.
3. Complete the cat. no. by adding custom text to the order item's memo text or notes field.

Example: Cat. No. 800F-AF3CE100J FILL identifies a flush, green push button cap with custom laser-engraved text FILL in large font.

Font Size	No. of Characters	Max. No. of Lines
G (small) (12 pt.)	7	1
H (standard) (16 pt.)	5...6	1
J (large) (20 pt.)	1...4	1

Custom Symbols/Graphics (symbols not found on page 61)

1. Select the cat. no. for the appropriate product and color from the Configurator Tables on this page.
2. Add U100 to identify the custom symbol or graphic.
3. Please contact your local Allen-Bradley sales office to submit the graphic.

Example: **Cat. No. 800F-AD3CU100**

- * Package quantity of one for all laser-engraved caps and diffusers.
- ** Standard font is Arial Narrow.
- ‡ Seven characters maximum allowable.
- § For configuration assistance, see RAISE product selection software.
