

KL6001 | Serial interface RS232

The KL6001 serial interface allows devices with an RS232 interface to be connected. The interface operates in conformity with the CCITT V.28/DIN 66 259-1 standards. The device connected to the terminal communicates with the automation device via the Bus Coupler. The active communication channel operates independently of the higher-level bus system in full duplex mode at up to 19,200 baud. The RS232 interface guarantees high immunity to interference through electrically isolated signals.

| Technical data | KL6001 KS6001 |
|------------------------------------|------------------------------------------------------------------------------------------------------|
| Technology | RS232 |
| Data transfer channels | 2 (1/1), TxD and RxD, full duplex |
| Data transfer rates | 1200...19,200 baud; default: 9600 baud, 8 data bits, no parity and one stop bit |
| Bit distortion | < 3 % |
| Line impedance | — |
| Cable length | max. 15 m |
| "0" signal voltage | -18...-3 V |
| "1" signal voltage | 3...18 V |
| Power supply | via the K-bus |
| Current consumption K-bus | typ. 55 mA |
| Current consumption power contacts | — (no power contacts) |
| Electrical isolation | 500 V (K-bus/signal voltage) |
| Data buffer | 128 bytes receive buffer, 16 bytes transmit buffer |
| Bit width in the process image | input/output: 3 x 8 bit user data, 1 x 8 bit control/status (up to 5 x 8 bit user data are possible) |
| Configuration | no address setting, configuration via Bus Coupler or controller |
| Special features | high interference immunity, electrically isolated signals |
| Weight | approx. 80 g |
| Operating/storage temperature | 0...+55 °C/-25...+85 °C |
| Relative humidity | 95 %, no condensation |
| Vibration/shock resistance | conforms to EN 60068-2-6/EN 60068-2-27 |
| EMC immunity/emission | conforms to EN 61000-6-2/EN 61000-6-4 |
| Protect. class/installation pos. | IP 20/variable |
| Pluggable wiring | for all KSxxxx Bus Terminals |
| Approvals | CE, UL, Ex |

| Special terminals | |
|-------------------|--------------------------------------|
| KL6001-0020 | standard format 5 bytes of user data |

| Accessories | |
|---------------|----------------------------------------------------------------------------------------------------------------------------------|
| TS6340 | IEC 61131-3 software library for TwinCAT PLC for communication via serial devices |
| TS6341 | license for using the software library for communication via serial Bus Terminals or PC COM ports using the protocol 3964R/RK512 |
| TS6255 | IEC 61131-3 software library for TwinCAT PLC with Modbus RTU function blocks for serial communication with Modbus devices |

| System | |
